MGT OPEN Business & Golf

Our business golf workshops offer managers and companies the opportunity to develop their communication skills, team-build, network and also experience the corporate and career benefits of business golf. Note: Golf experience is not required for our workshops!

"On course" for global success!

"Global-thinking professionals see golf as the sport of business"

Leading managers, both men and women, in North America, Asia and Europe play "Business Golf" to develop closer relationships with key "decision-making" clients and also with company colleagues.

If you are a manager aspiring to increase your networking relationships, or if you represent a company seeking to improve your corporate HR and CRM strategies, then Business Golf is an incomparable management tool. Our highly-motivating team-building training courses, which can be held world-wide, will give you a competitive advantage and help you and your company be "on course" for success.

All MGT OPEN Seminars are tax-deductible training expenses.

Company Golf Tournaments

Does your company already host a client appreciation golf tournament? If so, your event maybe failing because many of your very best clients, who do not yet golf, toss your invitation into the shedder! If you wish to improve your tournament, or initiate your first corporate golf event, we can help organise all logistics at any golf club to ensure that both your non-golfing AND your golf-playing clients will attend. Contact us for our "success" testimonials from other companies.

MGT OPEN "On Tour"

In-Company Training

***Motivational Seminars Anytime
Golf experience is not required!***

Golf is a perfect metaphor for business! Both share comparable needs: adhere to the rules; display professional etiquette; develop effective leadership skills; take risks; and, establish trust in relationships. We can organise a meeting or workshop anytime and anywhere to fit your goals:

- **Highly-motivational Meetings**
- **Company Brainstorming**
- **Teamwork and Team-building**
- **B2B Networking Skills**
- **Client Appreciation Events**
- **HR, Sales & Marketing Meetings**
- **Business English Skills**
- **Problem and Conflict Resolution**
- **Leadership Training**

Corporate Workshops offer significant group rate savings!
