

*Communication Training,  
in English, for Busy Managers*

English is increasingly becoming more essential for companies seeking greater success across Europe or around the globe. Frequently, companies have turned to language schools to improve corporate e-mail, telephone, presentation, meetings and negotiation skills in English. However, these schools rarely have trainers with Education degrees or relevant business experience to make the training successful.

Without management experience, these "language" trainers simply can not relate to the specialised vocabulary or concepts that today's busy managers need to remain up-to-date and competitive.

Thus, to improve your company's communication skills, you require training, customised for your company's needs and budget, designed by Educators who also have management experience!

## *“Mission Possible”*

### **A Learn-to-Learn Lifestyle**

**Mission:** Our goal is “to provide inspiring training so our clients can communicate in English more effectively, and profitably, with both customers and colleagues... *...around the globe or across the hall*”.

We make our mission possible by offering our clients company-specific vocabulary and training so that their employees can immediately feel more confident at work.

**Learn-to-Learn:** Most significantly, our use of online resources encourages employees to develop a long-term *“Learn-to-Learn Lifestyle”* that will assure continued learning after the workshop. This saves our clients time and money which in today’s economy is a both a crucial time-management and budgetary priority.

**2009 Calendar:** This brochure details our scheduled workshops for 2009 and our two inspiring training venues. Naturally, we can also train at your office, or elsewhere in Germany, anytime. A full list of our seminars can be found on our website.

## *“The Rheingau”*

### **A 45-minute Get Away**

**Training Remains Essential:** The “Crisis” has made investing in your people even more crucial. MGT OPEN offers you “financial crisis value” plus an inspiring venue for your staff training in the vineyard covered Rheingau slopes alongside the winding majestic Rhine River... *all within a 45-minute journey from Frankfurt!*

**A Full Day:** In the morning, your team can improve their e-mail, telephone, meeting, presentation and negotiation skills. Or you can select your own training or meeting theme. After lunch, all can enjoy a vineyard stroll, a Rheingau wine-tasting or a sunset cruise on the majestic Rhine River.

**Incentives and Corporate Events:** The Rheingau is also an ideal venue for your corporate events, be they *“politically-correct-post-crisis”* incentives for your team, or an incomparable destination for your colleagues or clients visiting Germany.

Enquire today about our 2009 Training and Event opportunities in The Rheingau.

## *“The Taunus”*

### **2009 Workshop Calendar**

**MGT OPEN at Golf Club Weilrod:** We offer your team a training room overlooking a manicured 18-hole golf course and the rolling hills of The Taunus. As with The Rheingau, our Taunus facilities are within one-hour of Frankfurt.

**Visit Us:** We invite you to MGT OPEN HOUSE at G.C. Weilrod on 17 May. Or visit anytime! We have four workshops scheduled for 2009, ideal for individuals or project teams, with all held on Mondays:

- **May 25: *Effective E-Mails***
- **June 22: *Powerful Presentations***
- **Sept. 21: *Moderating Meetings***
- **Oct. 26: *A Learn-to-Learn Lifestyle***
- **Any Monday! We can also organise specific training or a meeting!**

**Business and Golf:** Our strategy is to finish training by mid-day so everyone can enjoy “business-golf” in the afternoon. (*Note: Golf experience is NOT required*). We also organise company golf tournaments. For the many career and company benefits of “Business Golf” see our website.
